2.3 Day-Care Procedures

The insurer will pay for listed day-care procedures, such as cataract surgery, dialysis and chemotherapy, that need less than twenty-four hours of admission because of advances in medical technology.

Expenses related to a Pre-Existing Disease are covered only after forty-eight months of continuous cover with the insurer, and only if the disease was declared in the proposal form.

3.3 Cashless Treatment

Cashless treatment is available at network Hospitals if the insurer's third-party administrator approves the pre-authorisation request before planned admission, or within twenty-four hours of an emergency admission.

3.4 Reimbursement Claims

5.3 Partial Settlement

Where a bill includes both covered and excluded items, such as an admission for a covered surgery that also includes a cosmetic procedure, only the covered items are payable.
